

KENTUCKY MOUNTAINEER.

FOR THE RIGHTS OF THE MOUNTAIN PEOPLE OF KENTUCKY, NOT THEIR WRONGS.

VOLUME 1.

SALYERSVILLE, MAGOFFIN COUNTY, KENTUCKY, FRIDAY, JANUARY 26, 1912.

NUMBER 3.

Correspondence.

TO CORRESPONDENTS: Mail your letters early so they will get to us at least one day before Monday night. RULES: Write on one side of the paper only; write plainly; spell names correctly, and write "Cor" on the envelope.

To Our Correspondents.

Dear friends:

We take this means of answering a question that may be of importance to more than the correspondent who requests us to give our clubbing rates. We have no clubbing rates except those published in the Mountaineer. You will see that these rates are in connection with other papers. A county paper cannot afford to make rates for a club of subscribers. Its support is very limited. It must rely principally from the merchants, schools and other home institutions, together with subscriptions for its support. It is supposed that the greater portion of the people of a county will support a county newspaper. Consider for a moment why more people do not engage in the newspaper business. Our county seat has many men selling general merchandise, groceries, etc. For a long time we have been without a newspaper. When a man enters this business he must purchase several hundred dollars worth of goods for which there is no demand save in the printing business. Not only that but he must pay the money for many other things. It costs from seventy-five to one hundred dollars per month to make this paper what it is.

This is why we expect cooperation on the part of you as well as other people. This is why we cannot allow you or others a commission on subscriptions. The hearty co-operation that you and scores of others have begun must continue if we are to have an up-to-date paper.

We tried to make it plain in our Salutatory that we would have our political views but that no party bosses would run our paper.

Some of the people of Salyersville have said that we would hurt our paper saying what we did in our last issue in regard to the Reed-Lacy affair. We may do it, but we are not courting favors from county officers.

We live on a farm, not in Salyersville. We started out to stand for the RIGHTS OF MOUNTAIN PEOPLE OF KENTUCKY, NOT THEIR WRONGS. If we are silent on the misconduct of our officers, then we shall consider that we are not standing for the rights of our people. We are going to show the taxpayers where their high taxes are going. We hope that whatever your politics may be that you will see fit to continue the hearty co-operation that has been so highly appreciated by

THE EDITOR.

TRAVIS.

Well, your correspondent has received the first issue of the MOUNTAINEER and is well pleased with it and think I will be able to secure some subscribers at my postoffice.

It has been awful cold and windy but has moderated.

Work at cross-ties has been compelled to stop on account of bad weather but will commence again in a few days if weather remains favorable.

J. E. Risner and family, Wilmore Risner and family and Geo. Risner and family are selling out to move to Scioto Valley, Ohio. They aim to start about the first of March.

Hope we will have more to write next time. R. E. J.

EVER.

Jan. 16th death made its way into the home of Proctor Jenkins and took the babe from their embrace. The remains were taken to the Thomas Prater graveyard for burial.

The people of Ever are talking coal since the development of the big 9 foot mine on the head of Elkfork just beyond the Magoffin line in Morgan county. There has been another big mine developed on the head of Coffee Creek. Also one on the head of Smith's creek 8 1-2 feet thick. Men have come from many localities in different States to see the big mines and to try to lease the lands of the surrounding territory. They have leased some of the land, paying \$10 per acre.

There has been a big excitement about the Ben Montgomery mine at this place since the opening up of the 5 foot vein. The mineral companies are sending men to investigate.

WHY LIVING IS HIGH.

IT USED TO BE

The father behind the plow,
The mother under the cow,
The daughter feeding the sow,
The son up in the mow.

TODAY IT IS

The father in the automobile,
The mother in silk and satin;
The daughter playing the piano,
The son learning Greek and Latin.

A few days ago there was a son born to Albert Penix, of Ever, and he was so highly gratified over the result, it being his first and only son, that he seized his hat and burned it before anyone could prevent the outlay.

J. H. W.

MOUNTAINEER, \$1.00 the year.

OUR NEXT ISSUE

WILL BE SENT ONLY TO THOSE PEOPLE WHO HAVE PAID SOMETHING ON THEIR SUBSCRIPTION.

ANNOUNCEMENTS.

We are authorized to announce Frank Blair, of Salyersville, as a candidate for the nomination for clerk of Magoffin county, subject to the action of the Republican party.

"For mine eyes have seen thy salvation, which thou hast prepared before the face of all peoples."—Luke 2:30, 31.

If you are out of the county write us a letter occasionally.

If you like this paper tell others; if you don't like it tell us.

Have you read "Why Living is High" by our correspondent from Ever?

There is "more truth than poetry" in these stanzas. Other things enter into the high cost of living but we must admit that our present method of educating the boy and girl from the farm is greatly responsible for the high cost of living. Our county has in it about 5,000 children in school age. The greater part of these were reared on the farm, but we would like for a single one of our readers to show us where there is a single school in this county that is not educating the children away from the farm.

Gas! Gas! Gas!!!

Think of it. Sufficient gas to run a score of towns and sufficient coal to run a hundred towns for years to come. And yet we have some people who say that Magoffin county is a "good place to leave."

One of our subscribers told us a few days ago that he made \$1700 on a very small portion of an acre in four years by cultivating it in ginseng.

We only need one thing to make our county one of the greatest in the State. Enforce our laws and the people will be as anxious to get into our county as they now are to get out of it.

Our Circuit Judge, Jury Commissioners, juries, county officers and law-abiding citizens must be patriotic in doing their duty if the laws are enforced.

It takes courage of the highest type to stand for the right against the wrong. Our people are beginning to assert themselves on this subject of lawlessness as never before. This is the boosting that we need. Will you help it or will you hinder it?

If we get this boosting we shall get better roads, we shall get a county High School, we shall get protection for those high taxes and we shall get a higher price for our lands. We will get these if we are willing to pay the price.

CORRESPONDENCE.

hope he will continue in the good work as we neighbors want good bread to eat.

LICKBURG.

At last we have been loosed from the clutches of the long-drawn-out cold spell, and we can hold our heads up and let our breath out freely, with the assurance that it will become not ice on our mustaches.

Appropos of the coming Presidential election, I desire to elucidate just a tiny bit. I read an editorial in the Paintsville Herald in which the writer made the assertion that LaFollette had not the slightest shadow of a chance to win the Republican nomination for President. I have been reading a great deal about this man LaFollette, and I consider him the best available piece of Presidential timber we have. Of course Col. Roosevelt, like Saul of old, towers head and shoulders above them all, but between him and the Presidential chair stands the fatal precedent of a third term Charybdis. As for President Tait, I think that in his securing the nomination rests the hope of the Democrat party. The people at large consider that he has not properly fulfilled his promises to them, and with him at the helm the Republican party is doomed to defeat. I think LaFollette is much the safer man.

Rev. J. D. Bayes went to the county seat last week on business.

Joe Russell is at Jenkins, the Mecca of all fortune seekers.

Rev. I. C. Howard has gone to Mountain on business.

Prof. J. S. Adams began his school at this place on the 22nd inst. He enrolled twenty-five pupils in the several grades. We hope his school will be a roving success. The people of this community have the most implicit confidence in his ability as an instructor.

Regular meeting is held here every third Saturday and Sunday.

Rumor has it that J. A. Cheek, formerly of Salyersville, now residing at Nida, Okla., is coming back to his native home. Magoffin is the best place after all.

Ye scribe will spend this week with W. A. Cheek, assisting in completing a tie job near Salyersville.

REDWAY.

Hurrah for the Mountaineer! May her career be long and prosperous.

Andy Whitt, who some time ago was out hunting with a party of men and boys, received a shot in the eye, resulting in the entire loss of sight in that eye.

Homer Whitt, wife and mother, who have been visiting relatives at Salyersville for a few days, returned Sunday.

Harry Jones, of Cannel City, was a pleasant caller in this vicinity Sunday.

Let's all help the Mountaineer. If we can't do much we can boost a little. To each of us is given the power to leave a footprint physical, visible; and a spiritual imprint on the path invisible, the straight line to happiness and peace. Each tear we wipe away, each word of encouragement and hope we speak, each effort of our hand to raise the fallen, each flower we plant in nature's garden of friendship, each step we take in service to our fellow men is a stone with our marks upon it, in the great symbolic temple in which some day all mankind shall worship our one and only Father. When the tumult and turmoil of the passing day is ended and the fading glories of the west are gradually losing their prismatic beauty in the coming night, how sweet to see, for a moment even, in the growing coldness the beauty of the south, the warmth of the sun at its meridian height, as we stretch forth our arms naked, helpless as we come to receive the wages of a well spent life.

Again wishing success to the Mountaineer, I am very truly,

MAGOFFIN INSTITUTE.

Many citizens of Salyersville and community have long felt the need of a county paper, and the appearance of the Mountaineer is hailed with delight. The pupils and teachers of Magoffin Institute are appreciative of the space allotted to the school, and pledge the paper our sympathy and support.

A number of the young men and young ladies were called home Friday of last week to attend the funeral of their kinsman, Mr. Abner Salyer.

We have 23 boys in the boys dormitory. The extreme cold weather has prevented the coming of some young ladies whom we are expecting to enter now that it has moderated.

News has just reached us of the marriage of two of our last years students, Miss Visa Holbrook to Mr. Will Risner, and Mr. Cornelius Holbrook to Miss Hattie Dyer.

Mr. Harrison Coldiron went home Wednesday to be present at the marriage of his sister.

Our genial friend and dormitory keeper, Mr. J. F. Cooper, is spending a few days with us. His time is divided between us and his home interests at Bloomington. He is always welcome here.

There is a crowd of neighbors here every morn day conversing about the mineral deal and predicting hard times for a lot of the people if it should fail to carry. I could not tell which would be the best for the most of the people, for it to carry or fail to carry. If it fails to be a deal some will be in a hard place about money, while if it is a deal and the money paid it is thought that the trees and fencing will be in danger of being butted down by a few.

Born to Lindon Ray and wife Thursday night, their first heir, a daughter.

Some of our leading citizens are agitating a citizens ticket for our county. They figure that our county could get such a ticket of sober business men to serve the county for a fraction of what we now pay. The county would be enabled to save from \$35,000 to \$40,000, in four years. This amount would wipe out our indebtedness and build some bridges.

In our last issue, we called your attention to the development for oil on the Burning Fork, which the company expected to find, but turned out to be gas. An 8,000,000 foot well was struck at a depth of about 500 feet, Wednesday morning. The operator says the gas is sufficient to supply all the towns between Salyersville and Charleston W. Va. This is five times as strong as the gas that was struck a few weeks ago.

The operators fear that the gas will be ignited by some surrounding residence before it can be confined.

Drilling will be resumed in the immediate neighborhood, as the oil sand is over 40 feet in depth and of a good quality and predictions are for an oil field.

Important Decision of Supreme Court.

In 1907 the Cook Brewing Co. of Evansville Ind. sued for an injunction against the L. & N. R. R. to force it to carry liquor into dry territory in Kentucky. The L. & N. lost and appealed the case where they failed to be bettered. They then appealed to the Supreme court where the opinion

of the lower court was affirmed. The court held that the State Legislature could regulate the shipment in a state but that it had no right to regulate the shipments from without its borders.

SPARE THAT TREE.

Think of the trees as a crop and do no cut trees unless necessary. Divide your farm up into woodland and cultivated land. God did not make all of our land to raise corn on. The roughest and steepest will raise splendid timber and timber shall be worth more a dozen years from now. Did you know that America is threatened with a timber famine?

Explanation of Colors of Leaves.
 In extremely moist atmosphere the color of the leaves are not usually very bright, as in England. And in very dry climates the leaves dry up suddenly, and their skin, which is very thick to prevent the escape of moisture, is not sufficiently transparent to allow the color to be seen beneath. In regions where the autumn foliage is most vivid we find that an average season produces the most exquisite colors. Neither a very dry nor a very wet summer will result in much brilliancy.

Marriage Made Easy.

Gretna Green, Scotland, became famous for its celebration of irregular marriages. For many years the average number was five hundred. The ceremony consisted only of an admission, before witnesses, by the couple that they were husband and wife, this being sufficient to constitute a valid marriage. After this the officiating functionary (for many years a blacksmith), together with two witnesses, signed the marriage certificate.

THE EDITOR.

Time for Moral Co-operation.

We went to a church the other night to hear one of the advance guards of the Men and Religion Forward Movement tell of this new crusade for the Christianizing of America. We were shocked, however, to hear this minister include in his sermon an attack on a sister church, and also to quote with zest and approval the Old Testament reference to the negroes as doomed by the Almighty to be the servants and burden-bearers for the white race. We do not believe that true religion will get very far forward on such a basis as this. The religion which is to command the support of the men and women of today must be a constructive not a destructive religion; it must embody the kindly tolerance and human sympathy that Jesus taught and it must be an improvement on the eye-for-an-eye-and-tooth-for-a-tooth religion of Old Testament days. You may disapprove of the doctrines of some other religious sect, but it is nevertheless better that you should devote your efforts to building up your own faith than to tearing down the faith of others. There is room and to spare for all churches and all worthy movements, for the field is unbounded and there is more grain than harvesters.

A short time ago a Protestant missionary located in Korea at a point where a Catholic mission house was already in operation. The priest welcomed the new arrival and did all he could to help him get started. For example, he gave him a quantity of strawberry and other plants and helped him set them out. Not long after that a fierce torrential storm came, and as the priest's garden was in a valley it was entirely ruined by the flood. Then it came the turn of the Protestant missionary to reciprocate the favor, and he divided with the priest the plants which the priest had given him. That is the sort of co-operation and sympathy the churches and all good people should show toward one another everywhere. The cause of Christianity has been terribly injured in the Orient and elsewhere by the jealousy in too many cases displayed by the missionaries of the rival denominations. The heathen cannot understand why a religion which teaches love should shelter so much bickering and backbiting and sectarian antipathy. We know what we are talking about because we have been in the field personally. And it is the same in this country. We can't expect to make all the world accept our particular doctrines and the watchword should be "Live and let live." Others are probably as sincerely anxious to do good in the world as we are, and in any case there is so much good awaiting the doing that it is not necessary to squabble over it. —The Pathfinder.

AGED MAN CAUGHT

IN BURNING HOME.

In a fire which destroyed one of the oldest residences in the mountain section of the State, "Uncle" Labe McGahan, aged ninety years, and probably the oldest citizen of this section, was cremated. It occurred late in the night while the family were asleep, and all narrowly escaped death. In their hasty exit from the burning building the members of the family thought the father had escaped and gone to a near-by neighbor's house, but when this proved not to be the fact they made a quick search by means of long poles into the burning embers and found his charred body.

He served in the Mexican war and had located just across the Pulaski county line in Russell county, where he had lived for many years, and where he met his tragic death. The house in which he was cremated was erected some seventy-five years ago, and was recognized as one of the oldest in this entire section. He

leaves a large family of grown sons and daughters, most of whom also have large families of their own.

He was one of the best-known citizens in this part of the State.

A SON OF THE MOUNTAINS.

A son of the mountains am I!
The rugged rocks and gloomy hills,

The green grass high trees and blue sky

To me are beautiful; and rills
With melody's sweetest voice forever sing

"Thy fortune is greater than that of a king."

A son of the mountains am I!
Nature's my university.

The only high school from which I try

To graduate is, adversity.
My prayer is, the plow in the soil,

The answer, a harvest for my toil.

A son of the mountains am I!
Our fathers fought for the great flag.

I've heard them tell in years gone by,

How bullets tore it to a rag;
How their comrades fell thick and fast

Before the cannon's deadly blast.

A son of the mountains am I!
Our mothers loved the stripes and stars,

Gave their husbands to do and die

For freedom's cause in many wars.

A few welcomed them home again,

Many in tears waited in vain.

A son of the mountains am I!
Brothers gave me by the thousand

Who dared death's bugle calls when nigh

To keep whole the flag of our land.

Some maimed and dismembered to sweethearts returned.

Thousands were on the fields of glory unburied.

A son of the mountains am I!
Our sisters gave their lovers brave

In answer to our country's cry:
"The union and liberty save!"

Some after the battle wedded on the morrow,

Others, broken-hearted, died in their sorrow.

A son of the mountains am I!
The hills of my home hold rich strata of coal,

A harbor the miner's sign,
A place where capital reaches profit's goal.

Listen! Do you hear the sound of the pick and shovel?

That is why I am proud and love my hut and hovel.

A son of the mountains am I!
We keep your cities lighted, your factory wheels turning.

We want to know the reason why,

When we send you coal to keep your hearth fires warmly burning.

You deny us equality of representation,

Why you dishonor our fathers who died for the nation.

A son of the mountains am I!
As an American citizen I make appeal

To our governor chosen by the great common people to protect their common weal;

Give the mountaineer an equal chance in State government,

Give him his just due, a voice for greater development.

A son of the mountains am I!
With our daughters and sons beautiful and strong

Kentucky's schools all we supply.

Why are our heroes dead slandered by a wrong?

O, statesmen, lift from our State this disgrace,

Give the mountaineer his birth-right and place.

—PHILIP O. BROWN.

THE MAN IN THE CAB.

When you saw him last he was sitting quietly in his seat back of the big boiler watching the crowd hurry down the platform to bus-

iness and friends—a strong unromantic figure in oily overalls. Probably you did not give him a second glance, but a few minutes since he had held your life and hundreds of other lives literally in his hand.

Engine driving makes automobile driving mere play. If you are able to buy, or borrow enough money to buy, an automobile, you may have the joy of facing death whenever you may choose and the policeman is not watching, but you are mercifully prevented from letting many others share your fate. The engineer has no such limitations. He is at the mercy of mankind, nature and his time-card, but a trainload of people is the stake for which he plays. Of himself he cannot think. Face to face with inevitableness of the next moment, if disaster comes through another's carelessness, he must be the first to suffer. If he himself errs, there is no one to share the blame. He is the incarnation of responsibility that can neither be shared nor shifted.

You will find the man in the cab throughout the world. He stands face to face with responsibility, sometimes gaining honor or wealth, but always at the cost of being master of the lives of others. It is a lonesome job, this being the man in the cab. Lonesomeness is part of the cost of power. The higher you climb the less you can hope for companionship. The heavier and the more immediate the responsibility, the less can a man delegate his tasks or escape the tragedies of his own mistakes. The private soldier can always share in victories, but the commanding officer alone bears the weight of defeat.

The average man seldom thinks of the load which power brings. The captain of industry, on whose foresight and energy, or even the incidents of whose life, the prosperity and livelihood of thousands of families depend; the political leader who must bear the brunt of defeat which others have caused; the employer who can share his success with many, but who must face bankruptcy alone—these are no mere children of good fortune. Like the man in the cab, they stand face to face with responsibility, burdened with the fate of many, but expecting help from none.

The next time you look up from your novel to complain that the train is late, remember the man in the cab.

Trains do not run themselves. It is a human life that rules the steam that hurls you safely through space. And the next time you envy the man of power and position, think of the loneliness of his responsibility, the friendliness of his success, and the risk he faces while you, and those like you, are at ease. If leadership seems easy, just try being a leader. —The World Today.

An Expensive Luxury.

"Yes," said the literary man with a sigh, "style is a fine thing for a writer to have; but when his wife's got it too, it takes all the profit away." —Harper's Weekly.
